Preface

IMPRINTED IN YOUR OWN TWO HANDS is a map to help you uncover hidden riches of wealth, wisdom and prosperity. Yes, your personalized money map is inscribed into the palms of your hands like a treasure map. If you're ready to make more money, you can!

With a little information and my guidance, you can learn to decode these messages about yourself and use them to create your most amazing money experience. What I teach you will assist you in weaving together both the understood and misunderstood aspects of yourself so that you can take steps to manifest the cornucopia you want while finding fulfillment living your best life.

The contents of this book are based on my eighteen years of hand reading experience and more than 200 hours of content-rich material I have developed, practiced and taught to students around the world since 2005. One reason I'm assembling it now is because an editor from a prestigious magazine recently asked me to write about the "money line" in the hand. She asked because the 7.6 million magazine readership, of which 90% are women, want insights into generating more money so they can worry less about their families and their future. Another more important reason is that I firmly believe that women, mothers and young adults better equipped with money-making intelligence, strategies and mindsets will make for an incredibly better world. Everyone has specialized talents that are unmistakably identifiable in their own two hands.

My objective is to offer you guidance to relate more deeply, confidently and powerfully with your inner resources. You have extraordinary potential that is calling to come through you. Why would everyone have unique designs imprinted in their hands unless they were meant to be read? I'm not asking you to take my word for it; I'm asking you to try it for yourself, and see how it works for you. See for

yourself how your life can be positively transformed. Put this content to test. You can always go back to your old ways of thinking and acting when it comes to the almighty dollar.

Do you want financial freedom? Can you imagine boundless fortunes? Napoleon Hill said, "If you do not see great riches in your imagination, you will never see them in your bank balance." Let's combine your desires and your imagination with your own two hands and the personalized treasure map encoded there!

All cultures, nationalities and gender identities are honored and accepted here. I prioritize human dignity and deeply honor the life *you* are designing. Current grammar rules have been followed while editing this book. Referencing he, she, him, and her is not intended to restrict any reader's preference of expression. Adapt the terms noted the way you want so that you make the most of the contents.

**Money
in Your Hands**

Your Money Map Is in Your Hands

*“You have brains in your head. You
have feet in your shoes. You can steer
yourself any direction you choose.”*

—Dr. Seuss

TO DECIPHER YOUR money map, we'll start with the basics in the hand. Within your mighty hands are many features to explore. The shape, fingers, lines and markings in the hand can be interpreted to define particular components of your personality and psychology. What you like and dislike can be deciphered from what is inscribed in your hands. Blending a combination of three or more markings together will illustrate how you are different from everyone else. I'd like to introduce you to some fundamentals of hand analysis here. It's simple to get started. Depending on your desire and motivation, advanced levels can also be mastered. But in this book, we'll keep it simple and focus primarily on illuminating fortunes precisely scribed in the natural line formations on your palms and characteristics of your fingers and thumbs.

The basic hand map (Figure 1) shows the primary landscape of the hand. The high-level descriptions of the thumb, fingers and mounts come from the ancient art and science of hand reading. You will be introduced to an expanded yet simple vocabulary as you read through this book. The major lines are also identified in Figure 1.

This guidebook will help you analyze the following features and carvings in your hands in particular association with producing wealth while advancing you on your path to financial freedom.

- ✦ Fate Lines
- ✦ Challenge Markings
- ✦ Head Lines types
- ✦ Fingers, finger sections and finger spacing
- ✦ Gift and Wisdom Markings
- ✦ The thumb
- ✦ Basic hand shapes
- ✦ Heart Lines

No one marking in either the right or the left hand will reveal your entire money map. In fact, one pattern in the hand may contradict another in the same or other hand. For example, someone with a Late Bloomer (Figure 7) indicator on one hand may have the Determined

FIGURE I: BASIC HAND MAP

configuration (Figure 10) in the other. In this, and all cases, both variables must be evaluated together to point the owner to the highest possible potential. A variety of areas in the topography of your hands must be examined, specifically the features listed above. Blending various symbols together pinpoints capabilities and specific tactics to implement for creating more money. Markings in the hands will also indicate potential loss of fortune, and how.

The Fate Line has traditionally been aligned with money so we'll look there first.

The Fate Line

Your Destiny Depends on the Direction of Your Aim

*"You are the master of your destiny."
—Napoleon Hill*

THE TRADITIONALLY known Fate Line is a vertical line rising from the base of the palm toward the middle finger and is more appropriately called the Line of Saturn (Figure 2). It's also been called the Career Line, the Line of Destiny, and the Money Line. Saturn energy urges one to accomplish tasks through extended work and responsibility *over time*.

The length, quality and quantity of lines under the middle finger are interpreted to understand how the owner demonstrates responsibility through effort and direction with worldly affairs. Effort is made through organization, structure and discipline. Experience and knowledge support organizational skills. We typically see these Saturnian characteristics in work, projects and careers. As organized effort and commitment is put forth in a systematic method over time, money predictably appears. This sounds serious, but it can be fun, too. Engage your whole heart and reap results more rapidly.

Reward follows as we progress with integrity. Integrity is when your outer and inner worlds are in alignment, where the outer self reflects the inner self. For example, you love nature and plan vacations to national parks to enjoy mountains, trees and wildlife with your family. Integrity could be compromised by investing in oil drilling, which is disruptive to the environment and destroys nature habitats.

All variables and markings involving Saturn call us to balance our

FIGURE 2: SATURN LINE

inner and outer worlds, the active and passive sides of the hand—the thumb side being active and the opposite edge side of the hand being passive. Most hands have a Saturn Line appearing in some form or another. We'll explore many examples. Some hands don't have a Saturn Line. You'll learn what that means, too.

The words Fate and Saturn represent the same line. Using this line in a broad sense, a strength, pitfall, money mindset and breakthrough question have been assigned in the following example.

STRENGTH: I am effectively aligned with the appropriate task.

PITFALL: Dedication to tasks at the expense of enjoyment and relationships.

MONEY MINDSET: I live with joy, as I am balanced in my responsibilities, commitments, integrity and vocation.

BREAKTHROUGH QUESTION: Is *[this]* expenditure in alignment with my values?

Saturn energy is involved when we take care of business at the micro and macro levels. The universal lesson of Saturn is self-worth. We labor and accomplish to show worth. We like to see value in return for accomplishment. Saturn creates structure to complete tasks. In the process, the inside is watching the outside; this is integrity. Ideally, our livelihood is congruent with our personal values and integrity. Such is not always the case!

Saturn Line Origination Points

The location on the hand where the Saturn Line starts provides a reliable pointer as to the Saturnian influence one will see in their life. The starting point of the line is usually in the lower half of the palm and rises upward toward the fingers, like a tree grows to the sky.

Money through Family

The owner of a Saturn Line starting inside the Life Line (Figure 3) and rising up the hand, makes money through family business, goals and assets. His or her vocation is influenced by family ties.

Example

The Fate Line Types I See in My Hands

Right Hand

PAGE: 31 MARKING: Intuitively Guided

STRENGTH: My intuition is sharp and accurate. I never argue with a hunch.

PITFALL: Relying too much on logic and reason.

MONEY MINDSET: I am in the right place at the right time to engage in inspirational and meaningful work both to give and receive prosperity.

Left Hand

PAGE: 38 MARKING: Busy, Busy

STRENGTH: I take my duties seriously; I can be counted on and am determined to follow through.

PITFALL: Compulsion to work

MONEY MINDSET: As a money machine, I consciously create balance in the massive amount of well-paid work I do, and I schedule well-deserved time to play.
